PROFILE

Accomplished software engineer(frontend) with a proven track record in enhancing user experiences through expert application of Javascript, React JS, and collaborative problem-solving. Excelled in transforming designs into responsive websites, significantly improving mobile accessibility and user engagement. Demonstrated strong project management and communication skills, ensuring timely delivery of high-quality web applications. Experienced working with teams to produce impactful, leading-edge websites that engage customers and deliver business results. Well-versed in design standards and user preferences.

SKILLS

HTML & CSS

Javascript

Typescript

React JS

Next JS

Figma

Git Version Control

EXPERIENCE

Web Developer - Leadmonger

Apr 2023 - May 2024

- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
- Conducted basic user experience research, considered feedback, and implemented it to enhance user experience on all platforms I built.
- Built some websites with WordPress
- Produced websites compatible with multiple browsers.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Use regulatory and compliance standards for user interface designs.
- Optimized site content for mobile devices using responsive design techniques.
- Provided clear documentation of project progress, enabling effective communication between team members and clients throughout development stages.

EDUCATION

University of Ghana

2024-2028

BSc. Information Technology

- Maintained website performance by conducting regular updates and addressing compatibility issues across various platforms.
- Designed and updated layouts to meet usability and performance requirements.
- Participated in design meetings, contributing ideas for improving user interface elements and overall website layout.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.

Frontend Engineering Trainee – Andela Learning Community

Aug 2023 - Sep 2023

- Engaged in intense and extensive collaboration with both new and experienced developers to learn and work with the REACT JS library and Next JS framework, with high-level expertise in React state management strategies.
- I interacted with a community of learners and technical mentors and completed assessments, and various tasks.

UI/UX Designer – ALX Africa (Uptech Syndicate)

Jun 2023 - Aug 2023

- Developed wireframes and prototypes to effectively communicate design ideas to stakeholders and team members.
- Designed user flows, ensuring seamless transitions between different stages of the user journey.
- Identified pain points in existing user experiences through heuristic evaluations, leading to actionable recommendations for improvements.
- Consistently met project deadlines by managing time efficiently and prioritizing tasks according to importance levels.
- Used wireframes, mock-ups and prototypes to establish user interface design and architecture.
